Essential Features and Capabilities

AI-Enabled Patient Workflow

Streamline on-boarding as our advanced AI solutions handle everything---creating patient orders, verifying eligibility, checking for required authorizations, and identifying and indexing documents. Say goodbye to manual processes and hello to improved efficiency, so your team can focus on delivering exceptional value based care.

Order Management System

Our solutions optimize every step of your order processing. With AI-driven insights and complete workflow visibility, our system identifies backlogs, red flags, opportunities, and costly delays in real time---empowering your team to work smarter, deliver faster, and achieve greater efficiency.

Inventory Management

Our Inventory Management solutions empower organizations with real-time inventory oversight, asset tracking, and product maintenance tools. Whether you are managing a single warehouse or a multi-location network, gain complete control with our powerful, intuitive system.

Client Relation Management (CRM)

Gain real-time visibility into every aspect of your client interactions--from tracking leads for referral sources to monitoring sales representative activities. Empower your team with tools to nurture relationships, streamline sales workflows, and maximize growth opportunities.

Smart Integrations

Our open-source solutions seamlessly integrate with leading platforms through REST APIs and web services, ensuring a user friendly experience. Key integrations include EPIC, VGM, Cardinal Health, Respironics, ResMed, Service Power, eSolutions, UPS, USPS, Luma, Televox, and Twilio, empowering your team with unmatched connectivity and efficiency.

Business Intelligence (BI)

Unlock the power of your data with Business Intelligence (BI) capabilities. Our intuitive, predictive analytics tools empower your organizations to transform raw data into actionable insights. Whether you need scheduled or real-time reporting, our solutions ensure you stay ahead with tools that simplify decision-making and deliver measurable outcomes.

Referrals Management

Our offerings transform the revenue cycle with cutting-edge billing solutions powered by real-time tools, intelligent automation, and proactive error prevention. From claim submission to final payment, we simplify workflows, improve financial performance, and minimize administrative burdens--freeing your organization to focus on delivering exceptional value based care.

Scalable Resupply & Campaign Management

Our streamlined solutions seamlessly manage your patient resupply program---no extra staff needed---enabling smooth, scalable growth for your operations. Configure personalized campaigns to engage patients through appointment confirmations, surveys, and even credit card payment links, helping you enhance patient satisfaction while boosting revenue.
